FISH AS FOOD

marinescotland

**DO YOU WANT
SAUCE
WITH THAT?**

*Worcestershire
Sauce is made from
anchovies*

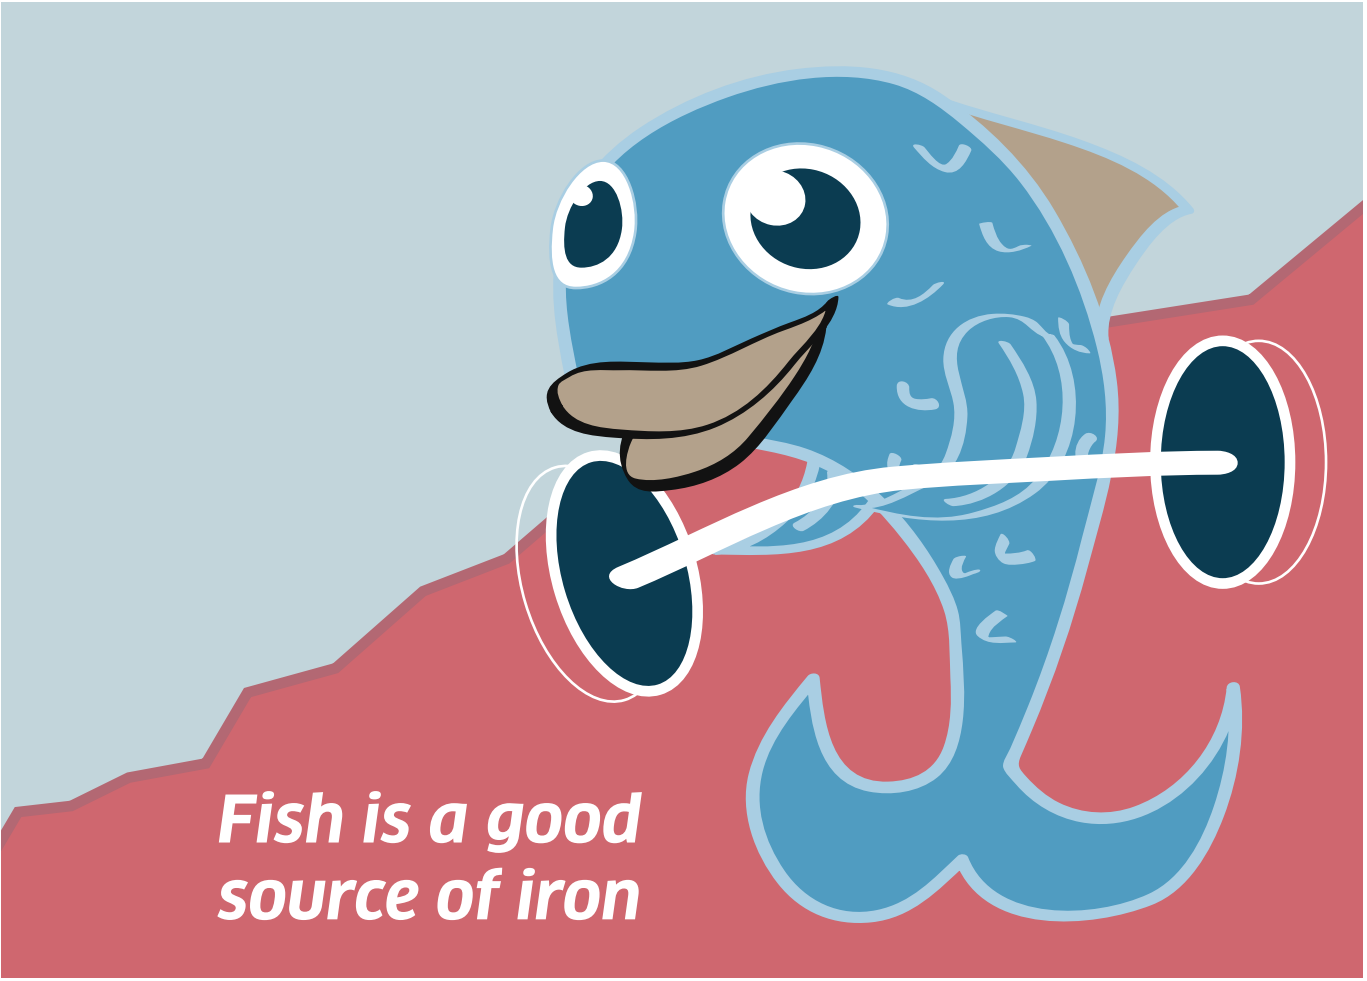

Pearlescence - the silver shiny substance found in fish scales - is often used in cosmetics to give them that glow and shimmer

GOGGLE EYED

Fish scales have been heated up and squashed together to make swimming goggles

***Fish is a good
source of iron***

Weeee

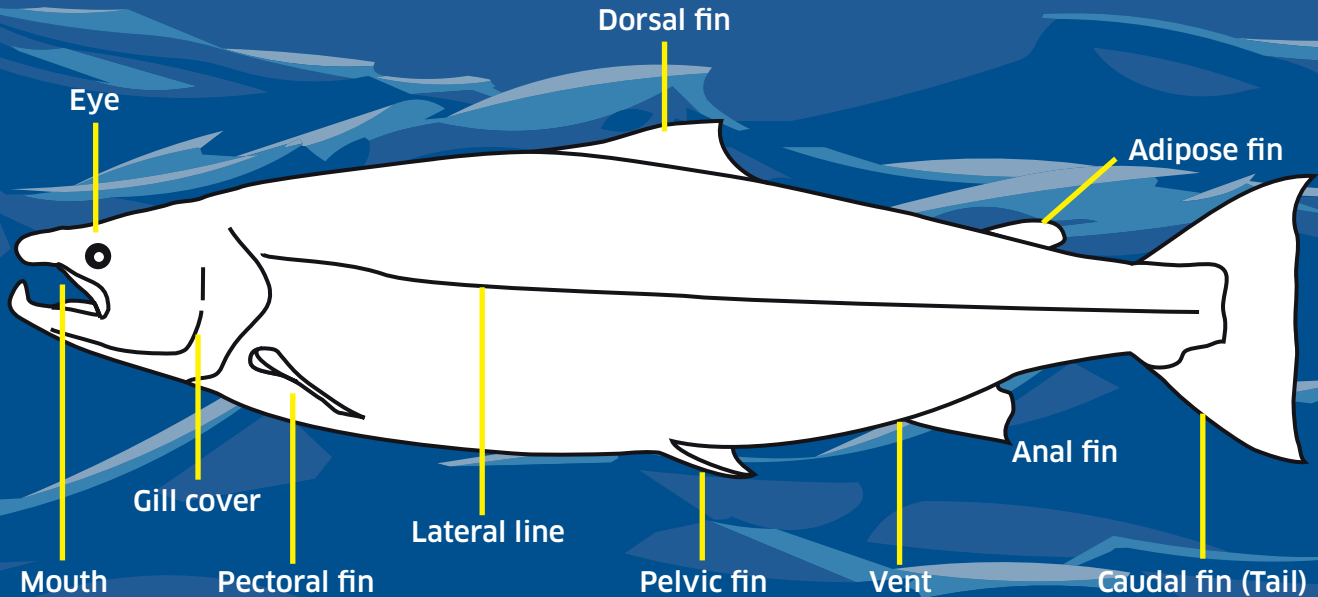

To test how fresh a fish is, put it in cold water and if it floats (or swims away) it's fresh!

COLOUR THE OCTOPUS

Some octopuses can
change the colour of their
• • skin to camouflage
themselves

- ***Educational activity and colouring-in sheets***
Why not colour in our research ship, the MRV Scotia? Or meet our cheeky characters Bosun Chaeto, Captain Copepod and Pirate Squid? Or impress your friends with a fish hat?

And for artists who want a bit more of a challenge, how about our crazy fishy patterned sheets? Just click on each image to get a full-sized colouring in sheet.
