

Case No:	2022-0021	Date of visit:	17/02/2022			
Time spent on site:	N/A	Main Inspector:				
Site No:	FS0875	Site Name:	Walters (East Lismore)			
Business No:	FB0125	Business Name:	Scottish Sea Farms Ltd			
Case Types:	1 REG	2	3	4	5	6
Water Temp (°C):		Thermometer No:		FHI 045 completed		
Observations:	Region:	ST	Water type:	S	CoGP MA	M-36
Dead/weak/abnormally behaving fish present?	<input type="checkbox"/>	If yes, see additional information/clinical score sheet.				
Clinical signs of disease observed?	<input type="checkbox"/>	If yes, see additional information/clinical score sheet.				
Gross pathology observed?	<input type="checkbox"/>	If yes, see additional information/clinical score sheet.				
Diagnostic samples taken?	<input type="checkbox"/>					
UNI/REG only - if unable to carry out intended visit detail reason below:						
Due to adverse weather, not able to inspect site						

Additional Case Information:

Wrasse mortality (2022)

Wk6: 0%, 0

Wk5: 0.42%, 32

Wk4: 0%,0

Wk3:0%,0

Wrasse had not been imported since the last inspection and are not planning to do so in the future.

The wrasse have been wild caught in the Sound of Mull and were input onto site in October 2021, prior to the the input of salmon. The wrasse have been not been very active, nor feeding very well. In addition they are found very deep in the pen. These observations have been attributed to colder temperatures.

Harvests are live haul using wellboats. In terms of the wrasse, Solway Transport is used for transfers.

Salmon were transferred onto site in October 2021. The stock origin is Barcaldine Smolt Unit (FS1328).

Remote paperwork inspection was conducted on 17/02/2022 by [REDACTED], supervised by [REDACTED].

Due to bad weather, physical site inspection scheduled for the 23/02/2022 was not able to be carried out.

Case No:	2022-0021		Site No:	FS0875

Registration/Authorisation Details					
1. Business/site details summary checked by site representative?				Y	
2. Changes made to details?				Y	
Site Details (include cleaner fish for all sections)					
Total No facilities	9	Facilities stocked	9	No facilities inspected	0
Species	SAL	WRS			
Age group	2021 Q3	Wildcaught			
No Fish	301,669	7,567			
Mean Fish Wt	1.078kg	Mixed			
Next Fallow Date (Site)	Dec/Jan 2022		Next Input Date (Site)	October 2023	
Recent (last 4 wks) disease problems?			Any escapes (since last visit)?	N	
If yes, detail:	AGD				
Movement Records					
1. Movement records available for inspection?				Y	
2. Date of last inspection:				20/10/2020	
3. Are records complete and correctly entered?				N	
4. Are movement records available for dead fish and waste?				N/A	
5. Are records complete and correctly entered?				N/A	
6. Are health certificates for introductions (outwith GB) available?				N/A	
Transport Records					
1. Are any movements carried out by (or on behalf) of the business (not using a STB)?				N	
If yes, is there a system in place for maintenance of transportation records?					
Mortality Records					
1. Mortality records available for inspection?				Y	
2. How are mortalities disposed of?				Incinerated - on site	
If other detail:				Ash to local landfill.	
3. Mortality records complete and correctly entered?				Y	
4. Recent mortality (last 4 wks):				2022: Wk6, 0.13%, 387; Wk5, 0.17%, 506; Wk4, 0.23%, 705; Wk3, 0.12%, 374	
5. Evidence of recent increased/atypical mortalities?				N	
If yes, facility nos/no mortality per facility/no stock per facility/reason:					
6. Any other peaks in mortality during period checked?				N	
If yes, detail:					
7. Have increased (unexplained) mortalities been reported to vet or FHI?				N/A	
If yes, detail action:					
8. Have 'mortality events' been reported to FHI? If no, enter details on mortality events sheet.				Y	
Treatments and Medicines Records					
1. Recent treatments (see comment)?				Y	
If yes, detail:				T.M.S., Slice	
If other, detail:					
2. Medicines records available for inspection?				Y	
3. Are records complete and correctly entered?				Y	
4. Are fish in a withdrawal period?				Y	
5. If yes, what treatment(s)?				T.M.S., Slice	
If other, detail:					
6. Are medicines stored appropriately?				Y	
Biosecurity Records					
1. Biosecurity records available for inspection?				Y	
2. Has the manner and frequency of mortality removal, recording and safe disposal been considered?				Y	
3. Has the manner and period in which the APB will notify Scottish Ministers or veterinary professional of any <i>increased (unexplained)</i> mortality at the site been included?				Y	
4. Has the action that will be taken in the event that the presence or suspicion of the presence of a listed disease is detected been included and <i>how</i> and <i>when</i> that will be notified to Scottish Ministers?				Y	
5. Has the health status of aquaculture animals being stocked on the farm site been covered (equal or higher health status, certification if required)?				Y	
6. Have the husbandry and biosecurity measures implemented between each epidemiological unit to minimise transmission of disease been covered (movement of staff, visitors, equipment, live or dead fish etc.)?				Y	
7. Is documentation available regarding the measures in place to maintain the physical containment of aquaculture animals held on site?				Y	
8. Have the biosecurity procedures been adequately implemented on site?					
If no, detail:					
Results of Surveillance					
1. Has any animal health surveillance been carried out by, or on behalf of, the business?				Y	
2. If yes, are results available for inspection?				Y	
3. Any significant results?				Y	
If yes, detail (if not detailed under recent disease problems).				AGD

Site No:

Sea Lice Inspection (Seawater Sites Only)

1. Has the site experienced sea lice problems in the previous 4 years?
2. Is the CoGP Farm Management Area (or equivalent) fallowed synchronously on a single year class basis?
3. Does the site have access to a range of licenced in-feed and bath sea lice medications (including deltamethrin, azamethipos and eman access to suitable biological and/or mechanical control measures, and can these be deployed in a reasonable period of time?
4. Is there a signed documented farm management agreement or statement relevant to the site and CoGP Farm Management Area (or equivalent)?
5. Are sea lice count records available for inspection? (Legal SSI, CoGP Annex 6)
6. Do records adequately reflect the required standard specified in the SSI and the CoGP? (Legal SSI, CoGP Annex 6)
7. Are sea lice (*L. salmonis*) record levels below the suggested criteria for treatment in the CoGP during the period that records are inspected?
8. Have average adult female sea lice (*L. salmonis*) numbers per fish been at a level of 3 or above (prior to w/b 10/6/19) or 2 or above (from 10/6/19 onwards) during the period that records are inspected?
If yes, have these been reported to the Fish Health Inspectorate? If no, FHI see comment.
9. Is *C. elongatus* infestation at a level which is considered to cause significant welfare problems? (CoGP 4.3.81, 5.3.50)
10. Have therapeutic treatments been administered or other actions taken when *L. salmonis* levels have exceeded the suggested criteria for *C. elongatus* is considered to have welfare implications? (CoGP 4.3.82, 5.3.51)
11. Has any other action been taken (where applicable)?
12. Have therapeutic treatments or the actions taken had a significant impact upon the lice levels recorded?
13. Are treatments, where conducted, carried out in cooperation between participating farms?
14. Is there a harvesting strategy for the site, where fewer populations or part populations are held without treatment for sea lice?
15. Is there a site specific written lice management procedure with waypoints describing set actions to deal with recognised scenarios during infestation?
16. Do the sea lice levels observed on stocks reflect sea lice count data? If no please detail reasons.

Containment Inspection

1. Has the site experienced equipment damage due to predators in the current or previous production cycles?
2. Are measures in place to mitigate against the predation experienced on site? (Detail below)

Bird Nets,

If other, detail below:

3. Have escape incidents or events been experienced on or in the vicinity of the site since the last FHI inspection?
If Yes proceed with questions 4 – 9. If No skip to question 10
4. Have these been reported to Scottish Ministers?
5. Have these been reported to local DSFB forthwith (where they exist)? (CoGP – 4.4.37, 5.4.17)
6. Have these been reported to the SSPO and local fisheries trusts forthwith (where they exist)? (CoGP – 4.4.37, 5.4.17)
7. Were methods (if any) used to recover escapees? If yes give detail

8. If gill nets were deployed was this action agreed with local wild fish interests and was permission given by Scottish Ministers? (Legal, CoGP 4.4.38, 5.4.18)

9. What action was taken to prevent and minimise the risk of further escapes? (Not covered in code but could be considered under satisfactory measures of the Act)

10. Is the site inspected as satisfactory with regards to containment? If no, please detail reason(s)

Case No: 2022-0021

Site No: FS0875

Date of Visit: 17/02/2022

Inspector: [REDACTED]

Point of Compliance

1. Is the farm under inspection located within a farm management area?

If N, no further questions require completion.

Points of Compliance for Both Farm Management Agreements and Statements

2. Has a current farm management agreement or statement (FMAg/S) been prepared?

3. Is the current FMAg/S available for inspection?

4. Does the FMAg/S identify the relevant farm management area?

5. Does the FMAg/S identify the fish farm site(s) to which it applies?

6. Does the FMAg/S identify the date of commencement of the agreement or statement?

7. Does the FMAg/S identify the date of review?

Arrangements for Fish Health Management

8. Does the FMAg/S identify the minimum health standards for the stocks to be introduced to the area or farm?

9. Does the FMAg/S identify the vaccination requirements for stocks held in the area or farm?

10. Does the FMAg/S identify the species of fish which may be stocked into the area or farm?

11. Does the FMAg/S identify the maximum stocking density of any pen on any farm in the area or the individual farm?

12. Does the FMAg/S identify the arrangements for the storage and disposal of any dead fish from any fish farm in the area or the individual farm?

Arrangements for The Management of Sea Lice

13. Does the FMAg/S identify arrangements for the sharing of data on sea lice numbers and treatments?

14. Does the FMAg/S identify the availability and the use of medicines on farms covered by the agreement of statement?

15. Does the FMAg/S identify any requirements for the sensitivity testing of available treatments for sea lice on farms in the area or individual farms?

16. Does the FMAg/S identify the circumstances under which biological controls and cleaner fish are to be used on farms in the area or individual farms?

17. Does the FMAg/S identify the arrangements for synchronous treatments on farms within the area?

Live Fish Movements

18. Does the FMAg/S identify the circumstances when live fish may be introduced or removed from the area or farm?

19. Does the FMAg/S identify the arrangements for the movement of live fish on and off sites in the area or individual farms?

Harvesting

20. Does the FMAg/S identify acceptable harvest practices on farms in the area or individual farms?

Fallowing

21. Does the FMAg/S identify the dates by which the area or individual farm will be fallow and the earliest date when a farm or area may be restocked?

22. Does the FMAg/S identify whether one or more year classes may be stocked onto sites covered by the agreement or statement?

23. Does the FMAg/S identify whether broodstock or potential broodstock are to be kept on any site covered by the agreement or statement?

Point of Compliance for Farm Management Agreements Only

24. Does the farm management agreement include arrangements for persons to become, or cease to be, parties to the agreement?

Management and operation

25. Is the fish farm being managed and operated in accordance with the agreement or statement?

26. What is the version no/date of issue of the FMAg/S?

FISH HEALTH INSPECTORATE VISIT REPORT

SUMMARY FOR INFORMATION OF SITE OPERATOR

BUSINESS No	FB0125	DATE OF VISIT	17/02/2022
SITE No	FS0875	SITE NAME	Walters (East Lismore)
CASE No	20220021	INSPECTOR	[REDACTED]

Case completion report

Recommendations in relation to the above case were made for implementation by 26/04/2022. Following submission of the required documentation, evidence has now been provided to Marine Scotland to demonstrate that the recommendations have been implemented.

This case will now be closed. This site may be subject to further audit and recommendations in the future.

Please contact myself or the duty inspector should you require any further information or have any queries regarding this report.

Signed:

[REDACTED]

Date: 25/03/2022

Fish Health Inspector

The Fish Health Inspectorate Service Charter detailing standards of service is available on the Marine Scotland website at <https://www.gov.scot/publications/fish-health-inspectorate-service-charter/>

FISH HEALTH INSPECTORATE VISIT REPORT

SUMMARY FOR INFORMATION OF SITE OPERATOR

BUSINESS No	FB0125	DATE OF VISIT	17/02/2022
SITE No	FS0875	SITE NAME	Walters (East Lismore)
CASE No	20220021	INSPECTOR	[REDACTED]

Inspection under the Aquatic Animal Health (Scotland) Regulations 2009

On this occasion, the site inspection could not be conducted due to adverse weather. This inspection will be rescheduled later in the year. Site records were inspected remotely.

Records

The surveillance frequency category of the site was assessed as low. An inspection under the Aquatic Animal Health (Scotland) Regulations 2009 will be conducted every third year. The category of the site will be reassessed on a routine basis and updated as required.

The information required for the public record of aquaculture production businesses regarding this site was verified and where necessary updated. The following records were also inspected to ensure that the conditions of authorisation for your Aquaculture Production Business (APB) are being met:

Aquaculture animal and aquaculture animal product movement records were inspected and appeared to be inadequately maintained.

Mortality records were inspected and found to be adequately maintained.

No mortality levels exceeding the reporting criteria have been recorded since the last inspection.

Reports detailing the results of animal health surveillance carried out by or on behalf of the business and/or Marine Scotland were available for inspection.

The biosecurity measures plan for the site was inspected and found to be adequately maintained and implemented.

The following points were raised with the site representative during the inspection:

- The movement records did not include the FS numbers.

This has now been addressed, therefore no further action required.

Inspection under the Animals and Animal Products (Examination for Residues and Maximum Residue Limits) (England and Scotland) Regulations 2015

Medicine records were inspected and found to be adequately maintained.

Inspection under the Aquaculture and Fisheries (Scotland) Act 2007

The farm management agreement/statement was inspected and found to be inadequately maintained. Please see the attached annex detailing the points that must be addressed.

Please ensure that these points have been addressed by 26/04/2022. Records or documentation demonstrating that these points have been addressed should be sent to the Fish Health Inspectorate (contact details below). The site may be subject to further inspection or enforcement action should the appropriate action regarding the above points not be taken within the time period stipulated.

Please contact myself or the duty inspector should you require any assistance or clarification in implementing any requirement or recommendation detailed in this report.

Signed:

Date: 15/03/2022

Fish Health Inspector

The Fish Health Inspectorate Service Charter detailing standards of service is available on the Marine Scotland website at <https://www.gov.scot/publications/fish-health-inspectorate-service-charter/>

Annex - The Aquaculture and Fisheries (Scotland) Act 2007

Section 4A of the Aquaculture and Fisheries (Scotland) Act 2007, as amended, introduces the requirement for a person carrying out the business of fish farming within a farm management area⁽¹⁾ to;

- (a) be party to a farm management agreement, or prepare and maintain a farm management statement, in relation to the fish farm, and
- (b) ensure that the fish farm is managed and operated in accordance with the agreement or statement.

To ensure compliance with the Aquaculture and Fisheries (Scotland) Act 2007, as amended, the following points must be addressed in the farm management agreement/statement

The statement or agreement must include arrangements for;

- The management of parasites⁽²⁾
This must include arrangements for the use of biological controls and cleaner fish.

⁽¹⁾ Farm management area means an area specified as such in the Code of Good Practice for Scottish Finfish Aquaculture

⁽²⁾ Parasites as defined in The Aquaculture and Fisheries (Scotland) Act 2007 which means *Caligus elongatus* and *Lepeophtherius salmonis*
