Young People & Opportunities

- 1) Should it always be for a young person to decide whether they want to take part in a youth work activity? (1)

Some young people need to be 'encouraged' more than others, they may have a negative attitude & therefore are unwilling to try some thing new. But ultimately it is up to the individual.

- 2) What do you think are the priorities for youth work in the 21st century in your area? (13)

It has to be based on an appreciation of what they have in their own environment, to help foster a sense of ownership & community

3) How do we make sure that youth work is accessible to all young people, including equality groups and those in rural areas, and respects their differences? (14)

Communication down to the grass roots!

4) What more can be done at national, local and organisational levels to make sure that young people can participate in decisions that affect them? (24)

5) How do we make sure that young people receive recognition for informal learning? (28)

Employers need to be educated too — on the value of youth volunteering projects — through supporting staff who are involved in these projects to recognising these elements in recruitment / job application procedures

Community Involvement

6) How can youth work contribute to good community relations? (15)

Working in home areas across ages &
coltsies can only benefit community
relations

7) What can be done to enable all youth work providers to engage in and influence local networks and partnerships, including the Community Planning framework? (which is co-ordinated by the local authority) (21)

Volunteers

8) How do we attract and retain more volunteers to help deliver youth work opportunities? (5)

Support from employers - 'time'

9) What skills, qualities and support does a 21st century youth worker need? (31)

Enthusiasm Δ Commitment

10) Do volunteer youth workers need the same skills and support as paid youth workers? (32)

Generally yes. Youth workers are often on very low wages.

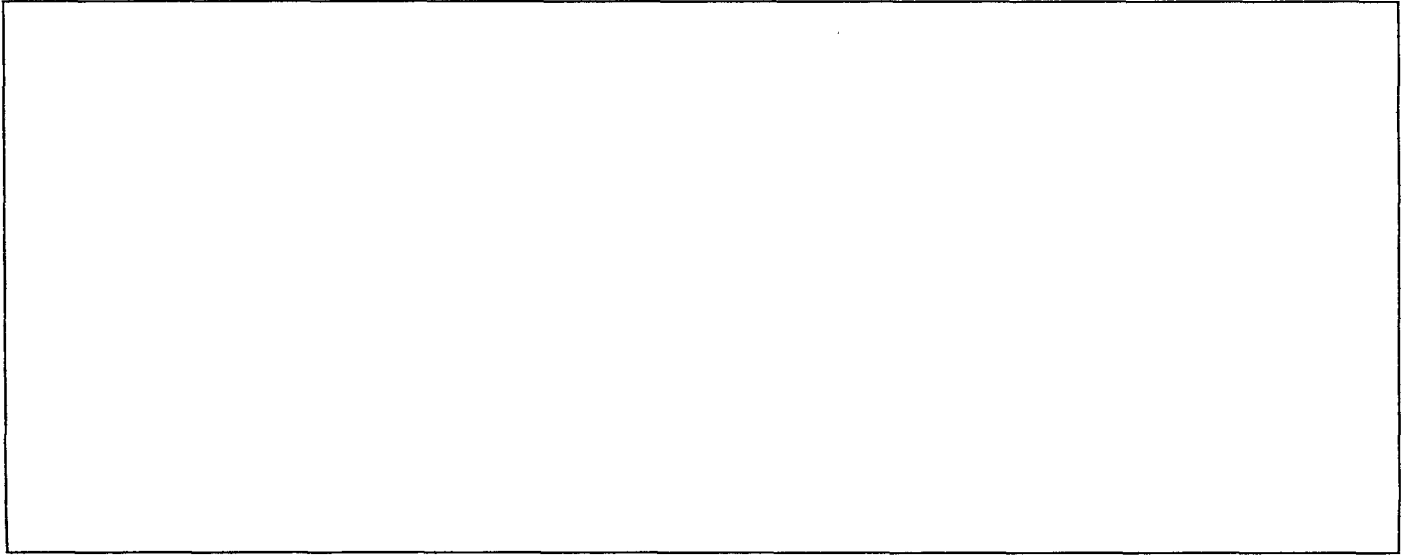

11) Are there specific types of training that are difficult to access and that volunteers need to do their job more effectively? (34)

12) How do we make sure that any measures put in place to strengthen standards, including registration, are suitable and work effectively for volunteers? (36)

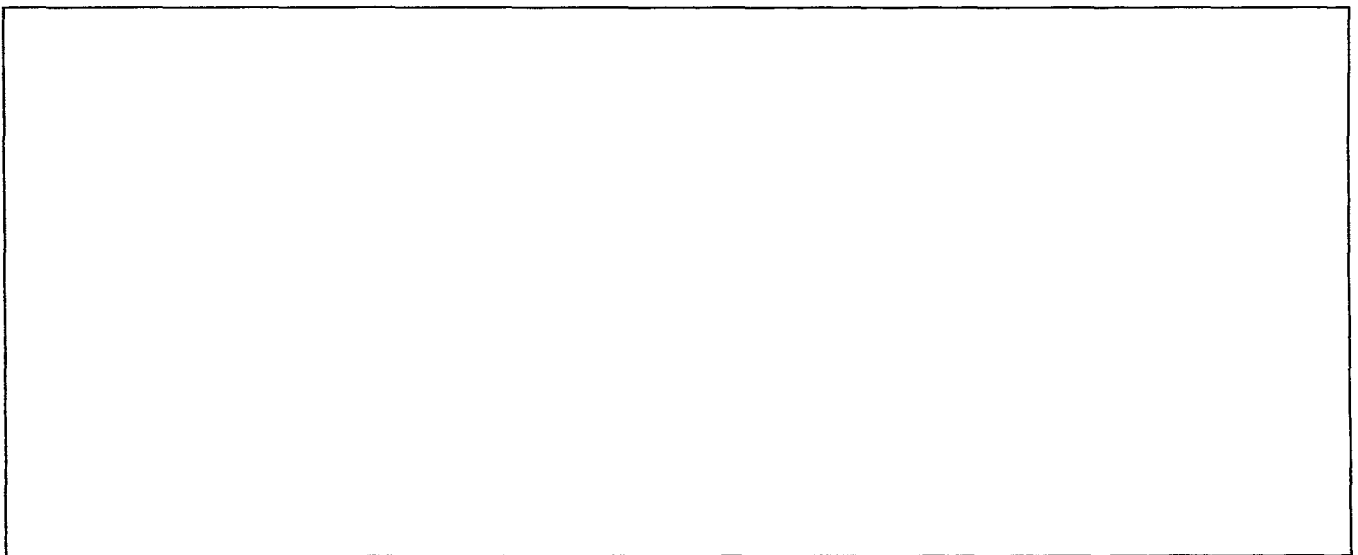

Pilot schemes - carried out across differing
community types eg: rural, urban ...

Resources & Capacity

13) What type of support is needed at national level to improve opportunities and outcomes for young people at a local level?
(8)

14) How can youth organisations expand the numbers of young people they deal with? (22)

Any other comments that you would like to make?

We would be most grateful if you could complete the following details.
