GLASGOW 2014. COMMONWEALTH GAMES.

Delivering a Lasting Legacy - Consultation Paper.

Response to Key Questions

1. Are the benefits you would like from the Games covered in this paper?

We welcome the strategic objectives within the key areas with particular reference to those within the 'greener' category.

2. Is there anything else we should be doing?

3. How can we, individually or collectively, best achieve these aims?

4. Do you have any other comments to offer on what should feature in the final games benefits and legacy plan?

It is essential that a 'well-designed, sustainable community, with access to amenities and services' should have adequate, accessible greenspace. Within the greenspace, consideration should be given to including plans for gardening opportunities as more and more people now appreciate and want to participate in the healthy activity of allotment gardening.
