

Dear Richard Lohead MSP.,

1. I believe that a 'No-Take Zone' (Marine Reserve) in Lamlash Bay, Arran is a very good idea.
2. I am concerned that the effects of scallop dredging, for example, are leading to serious ecological damage around our coasts, which can only be remedied by such action.
3. Furthermore, I believe that further action will be required in future to ensure the conservation of our marine heritage in Scotland.

I urge you to give serious consideration to this idea, whose time I believe has come.

Many thanks,

Yours sincerely,

John Butterworth
