
1. Do you agree or disagree with the proposal to establish a Marine Reserve in Lamlash Bay?

I agree

2. Do you think there would be any a) positive and b) negative implications should the reserve be established in Lamlash Bay?

Only positive implications

3. Are there any other points which you would like to make in relation to the proposed Lamlash Bay Marine Reserve?

The proposed arrangements really are the *MINIMUM* for Lamlash Bay, for the protection of the rare maerl beds, for the promotion of the natural regeneration of all marine life. The NTZ will be hugely beneficial not only to commercial fishermen who will gain with bigger and better catches in the neighbouring overspill areas, but also to the local economy by attracting visitors and divers to Arran.
