Dear Sir,

Question 1. Do you agree or disagree with the proposal to establish a Marine Reserve in Lamlash Bay?

Most Definitely Yes

Question 2. Do you think there would be any (a) positive or (b) negative implications should a Marine Reserve be established in Lamlash Bay?

I cannot conceive of any negative implications from this development.

Question 3. Are there any other points which you would like to make in relation to the proposed Lamlash Bay Marine Reserve?

The Lamlash Bay Marine Reserve will be a great asset to the Island, both in terms of ecological sustainability but also as an attraction for ecological tourism, which is a growing market in Arran. The project deserves to succeed and to demonstrate the way forward in sustainable fisheries' management. Failure would be a disaster - leadership and courage are required to ensure this works and COAST have certainly demonstrated their abilities in this respect. It would be appropriate for the Scottish Executive to do likewise.

Yours sincerely
