Dear Cabinet Secretary for Finance and Sustainable Growth, John Swinney MSP A Self-Funding method to "Reverse" Global Warming, while providing Abundant Clean Energy

<http://blog.360.yahoo.com/jamesbdunn?p=224>

NASA has already documented the use of such systems and by using solar energy to provide for a global energy system, we provide for active Weather Control to control and stabilize global weather.

Rebuilding glaciers, eliminating tornados, reducing the intensities of hurricanes, eliminating droughts, maintaining reliable rainfall, stabilizing the Great Ocean Conveyor belt, ... ensuring a stable environment for all of the countries of Great Britain.

Respectfully,
