

**List of substances determined for the purpose of the EC Groundwater Directive
(80/68/EEC)**

The substances listed below have been determined under the EC Groundwater Directive (80/68/EEC). These determinations have undergone external consultation and are final. The date of the determination and the consulting body are listed in the 'determined' column. Substances are listed together with their List I or II families and have been divided into List I and List II sections. List I substances that have been re-determined as List II on the basis of low risk of toxicity, bioaccumulation and persistence following the consultation process are designated in the family column as 'low TBP'. Substances that have been considered but do not fall into the List I or II families are included at the end of the list for completeness.

	Determination	Family	CAS Registry No.	Determined
1,1,1-trichloroethane	List I	Organohalogen	000071-55-6	JAGDAG, 2001
1,1,1,2-tetrachloroethane	List I	Organohalogen	000630-20-6	JAGDAG, 2001
