Dear Sir

Aquaculture and Fisheries Bill Consultation

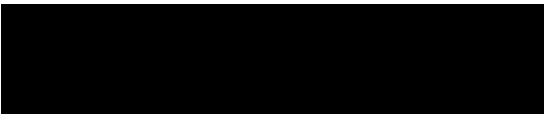

Thank you for the opportunity to comment on the draft Aquaculture and Fisheries Bill.

Grimersta is a renowned Salmon fishery attracting anglers from around the world. The fishery is the most productive in the Outer Hebrides and supports four full time and at least twelve seasonal jobs in a remote and rural area.

At Grimersta we work closely with the Western Isles District Salmon Fisheries Board; the Outer Hebrides Fisheries Trust; the Association of Salmon Fisheries Boards (ASFB) and Rivers and Fisheries Trusts Scotland (RAFTS).

To avoid duplication we fully endorse the response of ASFB.

Yours Faithfully,

Simon Scott
