

CONSULTATION QUESTIONS

Q1. Do you agree with the recommended list of Priority Marine Features as the basis for targeting future marine conservation action in Scotland's seas?

If your response includes a suggestion to amend the list, please indicate the specific species and habitats that your comments apply to and, where possible, provide or reference any evidence or data sources which have influenced your comments.

Yes No

General

Q2. Are there other issues that have not been highlighted in this consultation that you would like to mention?

Yes No

It would be useful to provide details of where the marine features are located in relation to existing designations and therefore demonstrate if there are gaps between designations and features in which infrastructure can be constructed.

If this information cannot be provided due to confidentiality issues, it would be useful to provide an idea of the scale and size of the features, in relation to existing designated areas.
