CONSULTATION QUESTIONS

1. Do these draft Regulations include the right groups of people?

Yes

No

2. If no, what other groups should be included within the draft Regulations?

Bearing in mind the health improvement role of the HSCPs, then the Director of Public Health (or deputy) should be included for strategic planning purposes. It is this specialist function that supplies the strategic needs assessment upon which the strategic plan is based. Moreover, it is the role of this function to describe the health of populations and its various sub-populations

Yes

**PRESCRIBED FORM AND CONTENT OF PERFORMANCE REPORTS
RELATING TO THE PUBLIC BODIES (JOINT WORKING)
(SCOTLAND) ACT 2014**

CONSULTATION QUESTIONS

1. Do you agree with the prescribed matters to be included in the performance report?

Yes

No

2. If no, please explain why:

3. Are there any additional matters you think should be prescribed in the performance report?

Yes

No

4. If yes, please tell us which additional matters should be prescribed and why:

Key indicators should be developed at national level, linked to a clearer set of national outcomes. These should then be reported on. There is an ever-present risk that the focus on health improvement and inequalities will become of lesser importance to the HSCPs than service delivery; coherent indicators that require a focus on health improvement and health inequalities will maintain that commitment. Importantly, where HEAT/SOA targets are now the responsibility of the HSCP, they should be included in the reports

5. Should Scottish Ministers prescribe the form that annual performance reports should take?

Yes

No

6. If you answered yes, what form should Scottish Ministers prescribe?

A standard reporting template should be developed which will allow comparisons year on year between HSCPs; the regulations must therefore specify indicators in detail
