13. Are you aware of any information or evidence that you think the Scottish Government should consider in relation to regulating domestic advertising in relation to impacts on business, including retailers, distributors and manufacturers?

See below. The MHRA has now licensed a nicotine device (involving an aerosol) and is in the process of considering granting licences to e-cigarettes for use in smoking cessation. These products will need to be advertised if licensed.

Inclusion of electronic cigarettes on the Scottish Tobacco Retailer Register

14. Do you agree that retailers selling e-cigarettes and refills should be required to register on the Scottish Tobacco Retailers Register?

Yes ☐ No ☒

15. Do you agree that the offences and penalties should reflect those already in place for the Scottish Tobacco Retailers Register?

Yes ☐ No ☒

16. If you answered 'no', to question 15, what offences and penalties should be applied?

We do not believe that pharmacy retailers should be included on the list where they are selling nicotine devices for the purpose of smoking cessation. The MHRA has recently licensed an aerosol nicotine device for use in smoking cessation and is currently considering granting licences for e-cigarettes. We believe that, particularly when a product is licensed for a medicinal purpose, entry onto the tobacco retailers register is unwarranted and represents a regulatory burden in providing access to proven therapies which help people stop smoking. We therefore believe that an exemption is required for pharmacies engaged in the trade of licensed nicotine devices of all types.

Where pharmacies are selling products licensed for use in smoking cessation they will be sold by trained staff under the supervision of a

pharmacist. This should provide adequate safeguards to ensure sales are safe and correct and any penalties suggested by the Tobacco Retailers Register are unwarranted and unnecessary.

E-cigarettes – use in enclosed public spaces

17. Do you believe that the Scottish Government should take action on the use of e-cigarettes in enclosed public spaces?

Yes ☐ No ☒

18. If you answered ‘yes’ to Question 17, what action do you think the Scottish Government should take and what are your reasons for this?

Comments

19. If you answered, ‘no’ to Question 17, please give reasons for your answer.

There is no evidence that the vapour from these devices are harmful and, with the licensing of some types of device for medicinal use, this may prevent people stopping using cigarettes if they are forced to use nicotine devices with cigarette smokers.

20. Are you aware of any evidence, relevant to the use of e-cigarettes in enclosed spaces, that you think the Scottish Government should consider?
