Dear Caroline,

This letter is to inform you of my intention to resign from my role as National Clinical Director on Tuesday April 30th. I will also, on the same day, resign from my NHS Tayside role and have let them know today.

It has been an enormous privilege to work with colleagues across the health and care sector in Scotland. The teams inside Scottish Government and in the system do remarkable work every day and it has been a pleasure to be a part of that work in service of the patients, their families and carers.

I'd like to thank you for your support and I wish you and my colleagues well for the future.

Yours sincerely
