

# Maternity Care Survey 2018

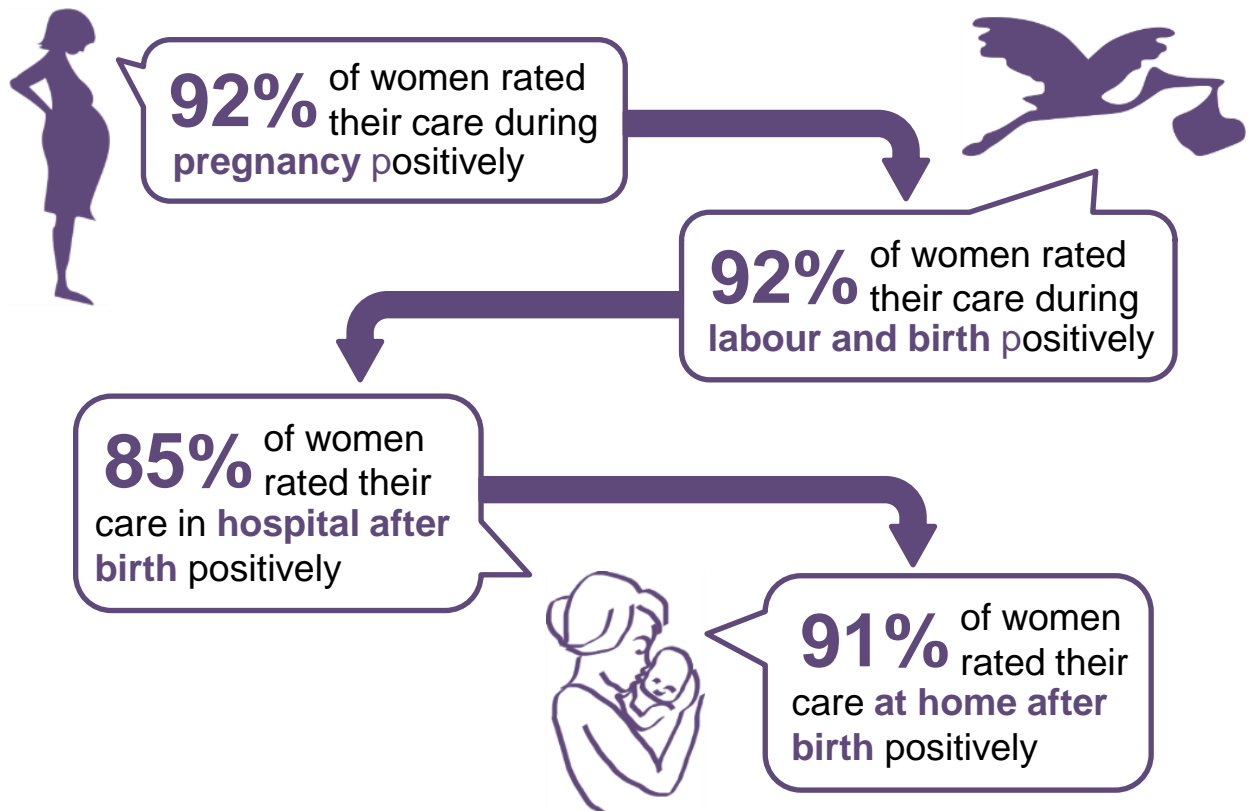

## The next Maternity Care Survey is coming this May!

This survey asks women who recently gave birth about their experience of NHS maternity care services. The survey results **inform** NHS maternity care services about **peoples' experiences** and the **differences between local areas**. They also **highlight areas of best practice** and **what needs improved**.

---

### Survey Results

Over 2,000 women from across Scotland responded to the last survey, telling us about their maternity journey from care during pregnancy through to care at home after birth. The results, published in **2015**, told us:
