Homelessness Statistics User Event, 15th October 2019

Data Collections

Homelessness data is collected by local authorities and shared with the Scottish Government on a quarterly basis.

These collections are:

- HL1 – Homeless applications (Case level)

- HL2 – Temporary Accommodation (Aggregate level, snapshot at end of each quarter)

- HL3 – Temporary Accommodation (Case level)

- PREVENT1 – Prevention activities (Housing Options) carried out by local authorities (Case level)

Organise a Homelessness Statistics User Group whose remit is to assess and improve the quality of the data collections.

Publications

Scottish Government gathers this data, carries out quality assurance, and publishes the results on a biannual basis.

June – Annual Homelessness and Housing Options publication.

January – Mid-year homelessness update.

In addition we frequently carry out 'ad hoc' analysis on our website.

Prevention

Key points

Compared with the same period one year ago, there has been a reduction of 2,995 approaches across Scotland (-7%). 24 Local Authorities have seen a reduction in approaches.

The most common type of activity was to provide general housing advice and tenancy rights advice - this accounted for 37% of all activities during 2018/19.

For approaches closed during the 2018/19 financial year:

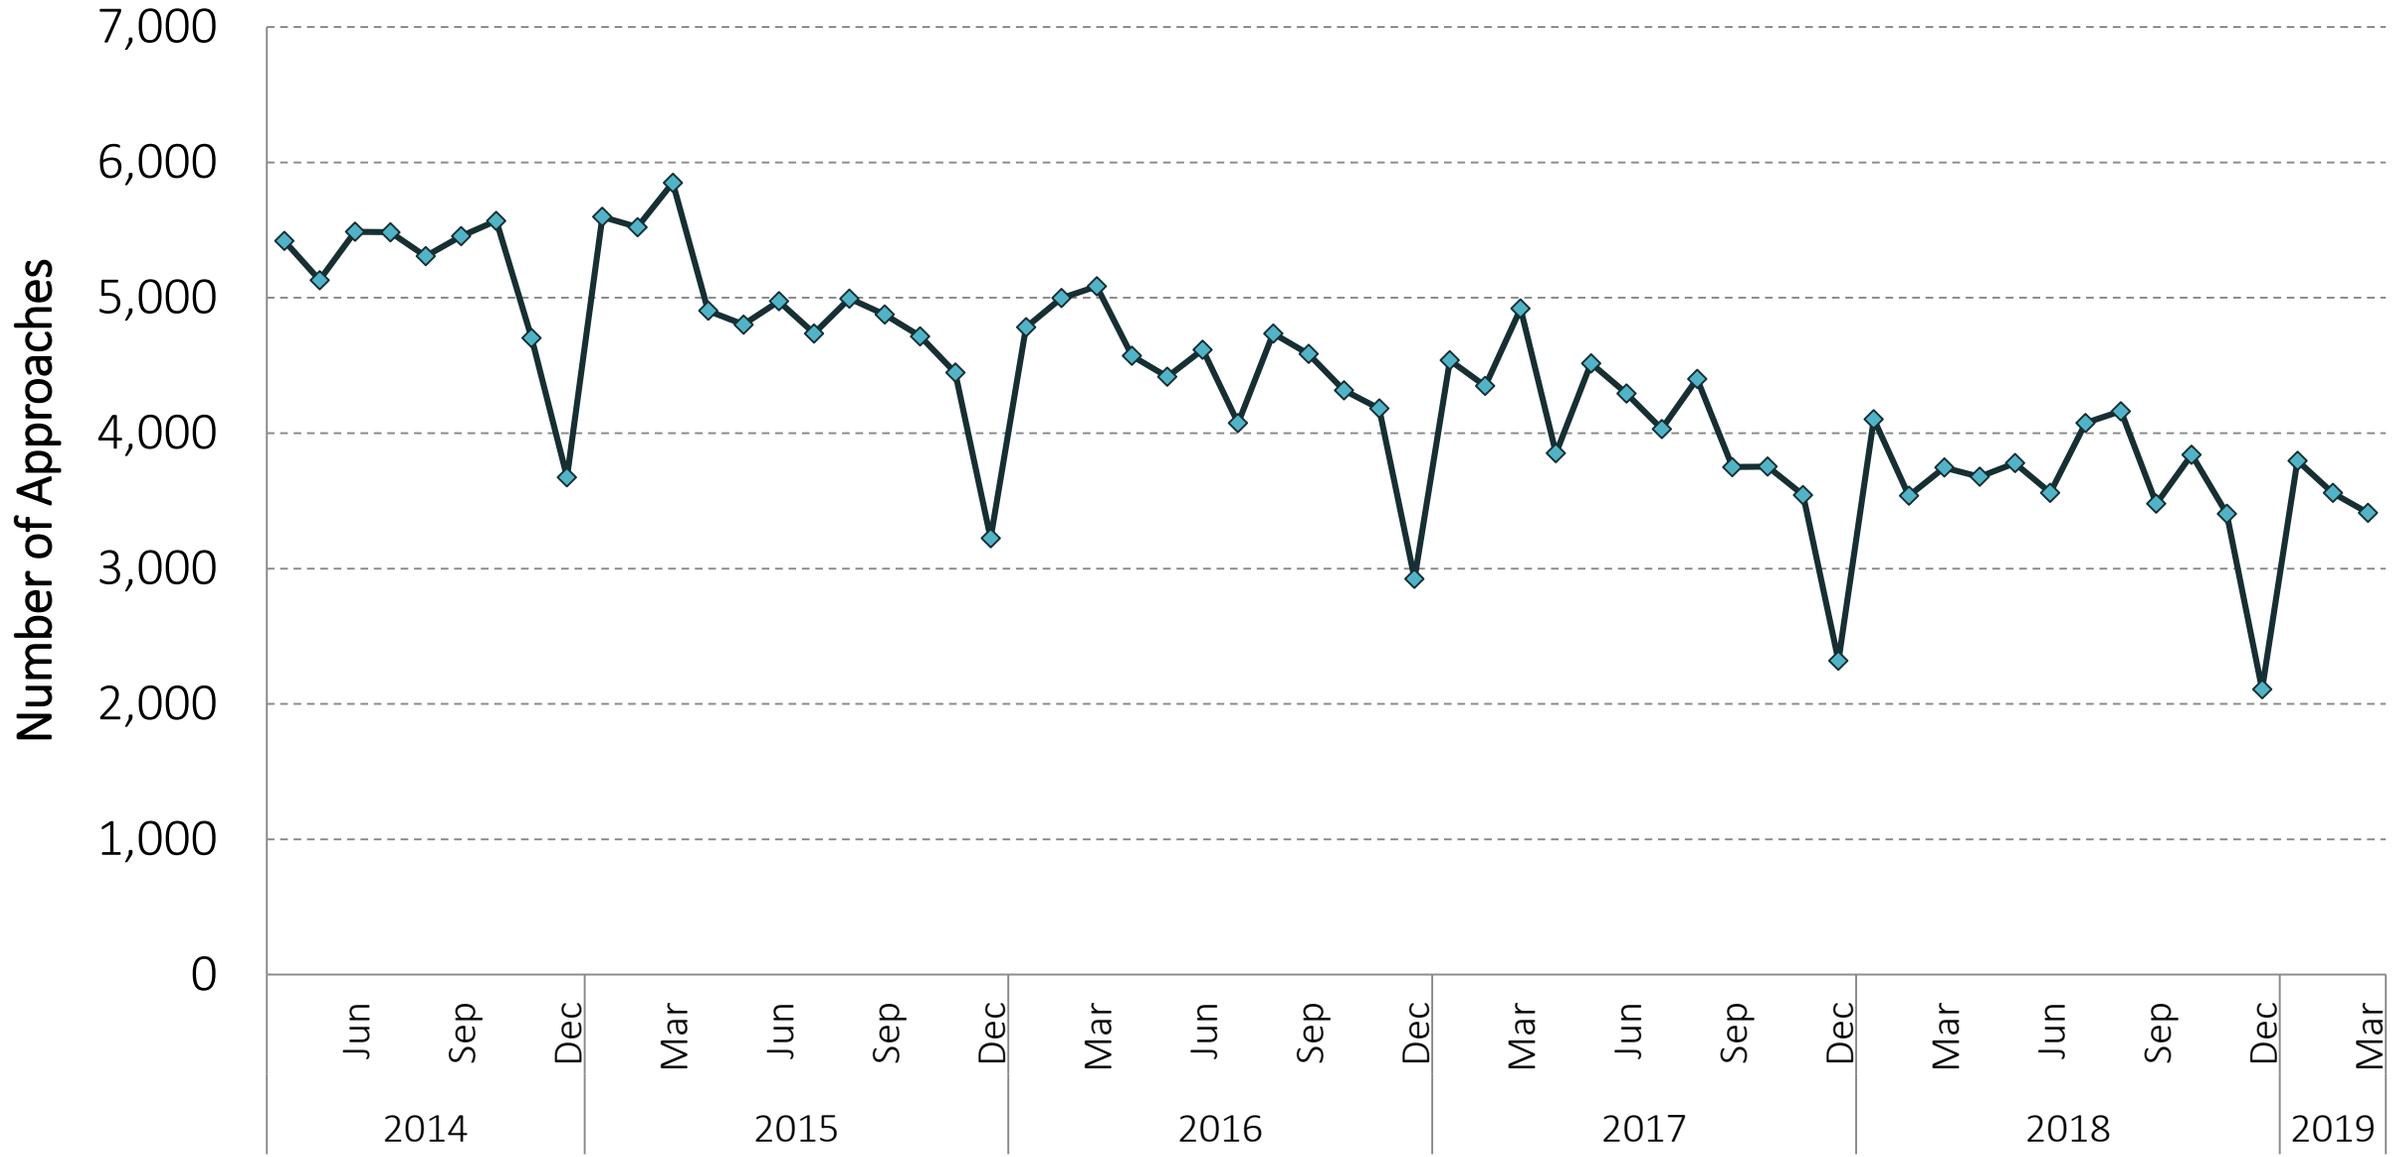

- 50% of approaches made a homelessness application.

- 22% remained in their current accommodation.

- 13% had an unknown outcome or contact was lost.

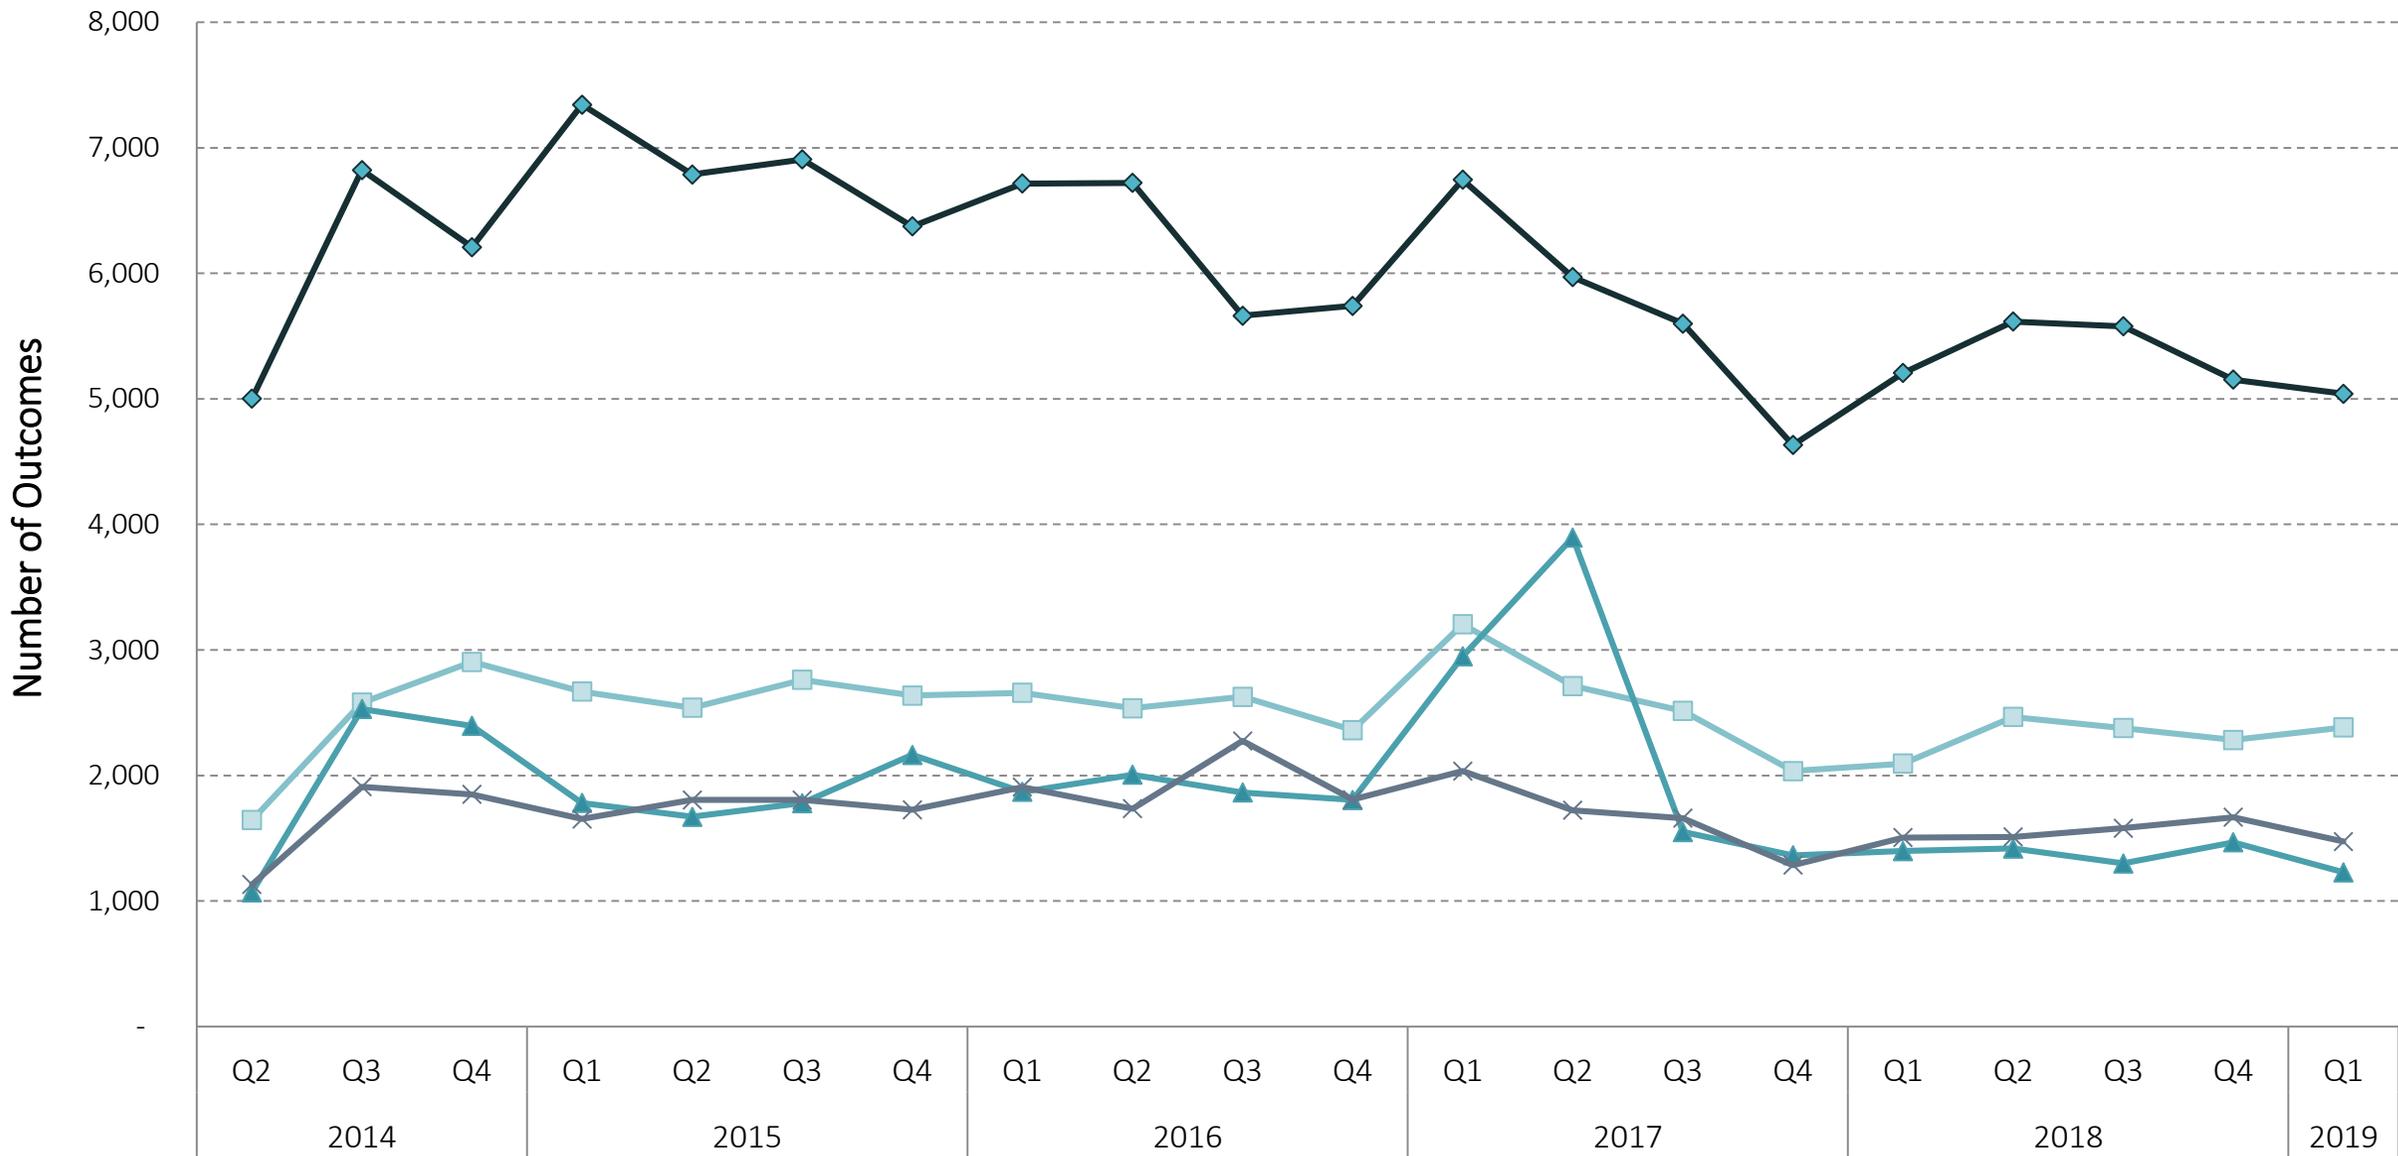

- 15% found alternative accommodation, including a social rented tenancy (5%), a private rented tenancy (2%) and moving in with family and friends (2%). Other known outcomes accounted for a further 6%.

Housing Options Approaches by Month

Outcome of Housing Options Approaches by Quarter

- ◆ Made homelessness application to local authority
- ▲ Lost Contact/ Not known
- Remained in current accommodation
- ✕ Moved into Alternative Accommodation

Applications

Key points

Applications rose by 3% to 36,465 in 2018/19. This is the second year applications have risen following a period of consistent decline since 2005/06.

The most common reason cited as the main reason for making a homelessness application was being 'Asked to leave' their previous accommodation, which accounted for 25% of applications.

The second most common reason was 'Dispute within the household / relationship breakdown: non-violent' (18%), followed by 'Dispute within the household: violent or abusive' (13%).

**e.g. landlord selling property, fire, circumstances of other persons sharing previous property, harassment by others, etc

Assessments

Key points

29,894 applications were assessed as homeless or threatened with homelessness, a rise of 523 (2%) on 2017/18.

This represents 82% of the 36,392 assessments made in 2018/19.

5.1% of those assessed as homeless were assessed as intentionally homeless.

5.8% of those assessed as homeless were repeat homeless, a proportion that has fallen from 7.0% in 2014/15.

Temporary Accommodation

Key points

There were 10,989 households in temporary accommodation as at 31 March 2019, an increase of 1% since last year.

Of these households in temporary accommodation, 3,315 had children or a pregnant woman – an increase of 2% compared with one year earlier.

The number of children in temporary accommodation increased by 3%, to 6,795 compared with the same date one year ago.

Between 1 April 2018 and 31st March 2019 there were 620 placements involving a breach of the Homeless Persons (Unsuitable Accommodation Order) (Scotland). Most of these were in Edinburgh (465 breaches).
