

Covid-19 Education Recovery Group - Infographic

As at 7 February 2021:

- There have been 14,751 children and young people aged 2-17 years in Scotland who have tested positive for COVID-19 since the start of the outbreak.

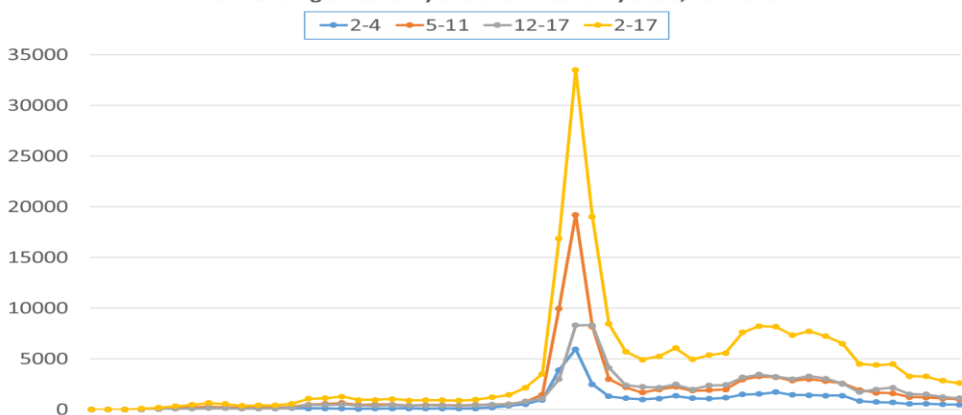

In the week ending 7 February 2021:

- There were 545 children and young people aged 2-17 years in Scotland who tested positive for COVID-19, among the 2,612 children and young people who were tested.
- The identified COVID-19 positive cases reflected a rate of 42.2 cases per 100,000 2-4 year olds, 47.9 cases per 100,000 5-11 year olds, 58.7 per 100,000 12-13 year olds, 81.8 per 100,000 14-15 year olds and 103.9 cases per 100,000 16-17 year olds. The rate of cases per 100,000 of the general population was 111.8.

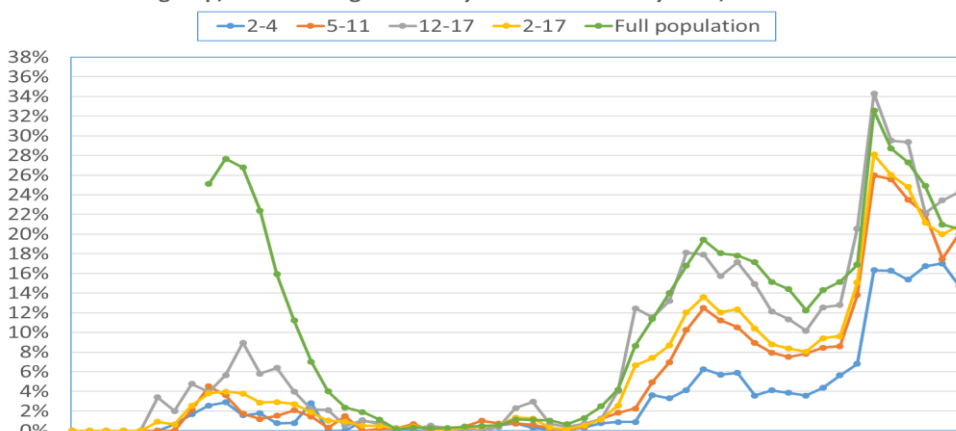

On 16th February:

- The overall percentage of pupils in attendance in local authority schools was 8.1% (11.3% in Primary schools, 3.3% in Secondary schools and 21.8% in Special schools). Twelve local authorities were on holiday and were excluded from the analysis.
- 22,481 staff were physically in school, of which 10,537 were teaching staff and 11,944 were other school-based staff. These figures are lower than normal as 12 local authorities were on holiday.

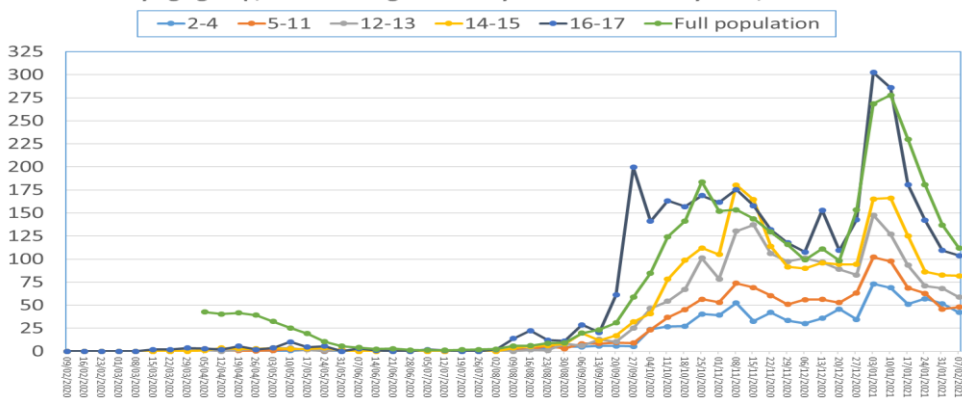

Number of children and young people tested for Covid-19 by age group, week ending 9 February 2020 to 7 February 2021, Scotland

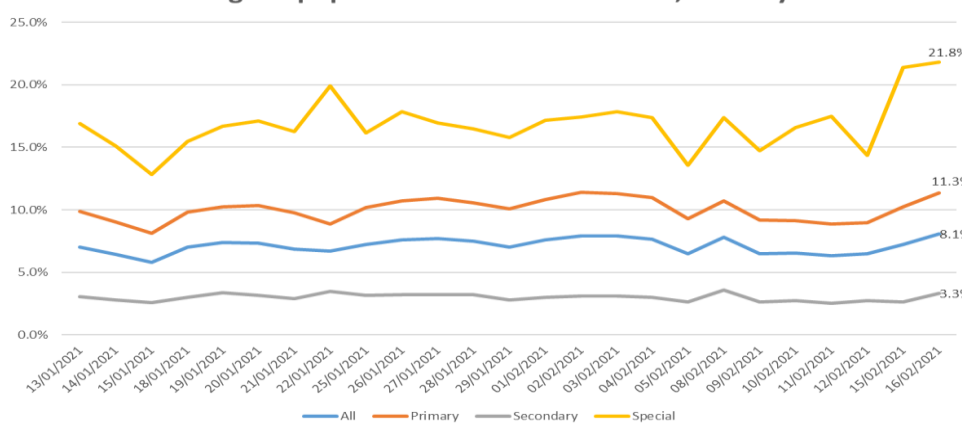

Percentage of children and young people tested positive for Covid-19 by age group, week ending 9 February 2020 to 7 February 2021, Scotland

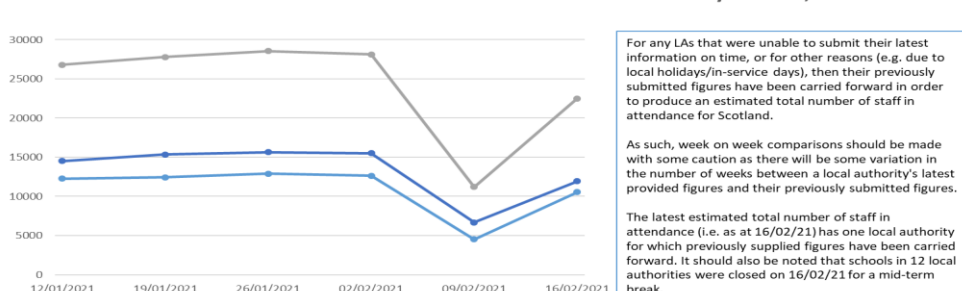

Rate per 100,000 population of positive COVID-19 cases across NHS Scotland, by age group, week ending 9 February 2020 to 7 February 2021, Scotland

Percentage of pupils in attendance at school, January 2021

Estimated number of staff in attendance in local authority schools, Scotland

For any LAs that were unable to submit their latest information on time, or for other reasons (e.g. due to local holidays/in-service days), then their previously submitted figures have been carried forward in order to produce an estimated total number of staff in attendance for Scotland.

As such, week on week comparisons should be made with some caution as there will be some variation in the number of weeks between a local authority's latest provided figures and their previously submitted figures.

The latest estimated total number of staff in attendance (i.e. as at 16/02/21) has one local authority for which previously supplied figures have been carried forward. It should also be noted that schools in 12 local authorities were closed on 16/02/21 for a mid-term break.

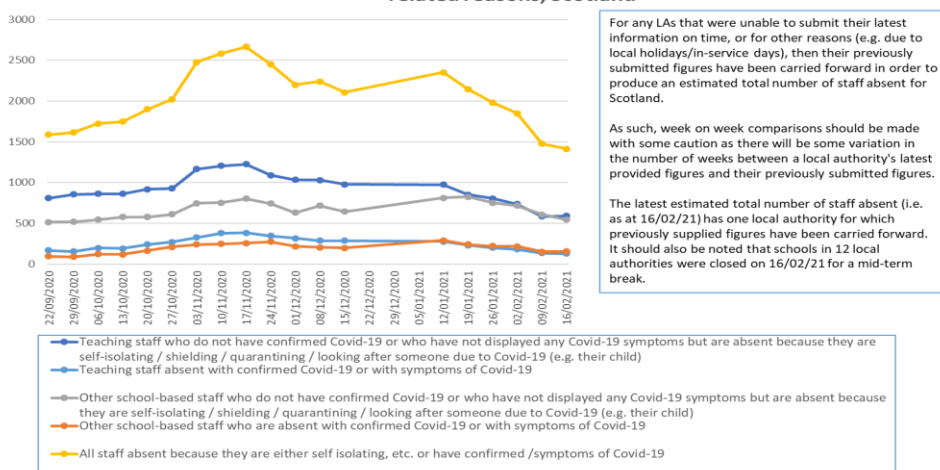

Covid-19 Education Recovery Group - Infographic

- 1,414 staff were absent due to Covid-19 related reasons, of which, 716 were teaching staff and 698 were other school-based staff. These figures are lower than normal as 12 local authorities were on holiday.

- 15,475 children were attending a childcare setting and 429 had a Covid-19 related absence. Note that not all open settings completed the survey and that these figures are an underestimate of the actual number of open settings and children attending.

- 509 (3.6%) childcare staff were absent due to Covid-19 related reasons [based on a 40% response rate].

Estimated number of local authority school-based staff absent due to Covid-related reasons, Scotland
