

How to Respond

Responding to this consultation

You are invited to respond to this consultation by 13 November 2013 using the form in Appendices D & E.

Please send your response with the completed Respondent Information Form (see 'Handling your Response' below) to:

Responses can be sent by email, by post or by online electronic response form:

Email: [Marine Environment Mailbox@scotland.gsi.gov.uk](mailto:Marine_Environment_Mailbox@scotland.gsi.gov.uk)

Post: MPA Network Consultation
Scottish Government
Marine Planning and Policy Division
Area 1-A South
Victoria Quay
Edinburgh
EH66QQ

On line: www.scotland.gov.uk/consultations

If you have any enquiries please send them to [Marine Environment Mailbox@scotland.gsi.gov.uk](mailto:Marine_Environment_Mailbox@scotland.gsi.gov.uk) or call Sebastian Howell on 0131 244 5301, Michael McLeod on 0131 244 5562 or Paul Cook on 0131 244 0381.

We would be grateful if you would use the consultation questionnaire provided in your response as this will aid our analysis of the responses received. This consultation, and all other Scottish Government consultation exercises, can be viewed online on the consultation web pages of the Scottish Government website at <http://www.scotland.gov.uk/consultations>.

The Scottish Government has an email alert system for consultations, <http://register.scotland.gov.uk>. This system allows stakeholder individuals and organisations to register and receive a weekly email containing details of all new consultations (including web links). It complements, but in no way replaces SG distribution lists, and is designed to allow stakeholders to keep up to date with all SG consultation activity, and therefore be alerted at the earliest opportunity to those of most interest. We would encourage you to register.

Handling your response

We need to know how you wish your response to be handled and, in particular, whether you are happy for your response to be made public. Please complete and return the **Respondent Information Form** which forms part of the consultation questionnaire as this will ensure that we treat your response appropriately. If you ask

for your response not to be published we will regard it as confidential, and we will treat it accordingly.

All respondents should be aware that the Scottish Government are subject to the provisions of the Freedom of Information (Scotland) Act 2002 and would therefore have to consider any request made to it under the Act for information relating to responses made to this consultation exercise.

Next steps in the process

Where respondents have given permission for their response to be made public and after we have checked that they contain no potentially defamatory material, responses will be made available to the public in the Scottish Government Library and on the SEConsult web pages. You can make arrangements to view responses by contacting the SG Library on 0131 244 4552. Responses can be copied and sent to you, but a charge may be made for this service.

What happens next?

Following the closing date, all responses will be analysed and considered to help us make a decision on the shape of the MPA network. We aim to issue a report on this consultation process in early 2014.

Comments and complaints

If you have any comments about how this consultation exercise has been conducted, please send them to Sebastian Howell. (0131 244 5301 or Sebastian.howell@scotland.gsi.gov.uk).

The Scottish Government Consultation Process

Consultation is an essential and important aspect of Scottish Government working methods. Given the wide-ranging areas of work of the Scottish Government, there are many varied types of consultation. However, in general, Scottish Government consultation exercises aim to provide opportunities for all those who wish to express their opinions on a proposed area of work to do so in ways which will inform and enhance that work.

The Scottish Government encourages consultation that is thorough, effective and appropriate to the issue under consideration and the nature of the target audience. Consultation exercises take account of a wide range of factors, and no two exercises are likely to be the same.

Typically Scottish Government consultations involve a written paper inviting answers to specific questions or more general views about the material presented. Written papers are distributed to organisations and individuals with an interest in the issue, and they are also placed on the Scottish Government web site enabling a wider audience to access the paper and submit their responses.

Consultation exercises may also involve seeking views in a number of different ways, such as through public meetings, focus groups or questionnaire exercises.

Copies of all the written responses received to a consultation exercise (except those where the individual or organisation requested confidentiality) are placed in the Scottish Government library at Saughton House, Edinburgh (K Spur, Saughton House, Broomhouse Drive, Edinburgh, EH113XD, telephone 0131 244 4565).

All Scottish Government consultation papers and related publications (e.g. analysis of response reports) can be accessed at: Scottish Government consultations (<http://www.scotland.gov.uk/consultations>) The views and suggestions detailed in consultation responses are analysed and used as part of the decision making process, along with a range of other available information and evidence. Depending on the nature of the consultation exercise the responses received may: indicate the need for policy development or review; inform the development of a particular policy; help decisions to be made between alternative policy proposals; be used to finalise legislation before it is implemented. Final decisions on the issues under consideration will also take account of a range of other factors, including other available information and research evidence.

While details of particular circumstances described in a response to a consultation exercise may usefully inform the policy process, consultation exercises cannot address individual concerns and comments, which should be directed to the relevant public body.

CONSULTATION QUESTIONS

1. Do you support the development of an MPA network in Scotland's Seas?

Yes No

An MPA network is a long overdue and very welcome development. I do not have intimate knowledge of the possible Nature Conservation MPA sites and therefore offer no comments for individual locations. However, I have "overview" comments regarding the network and these are presented in sections 34 *Sustainability Appraisal* and 35 *Final Thoughts*.

Individual possible Nature Conservation MPAs

2. Do you have any comments on the case for designation, management options and socioeconomic assessment for the *Clyde Sea Sill* possible Nature Conservation MPA?

Designation: Yes No

Comments

Management Options: Yes No

Comments

Socioeconomic Assessment: Yes No

Comments

All of the above: Yes No

Comments

3. Do you have any comments on the case for designation, management options and socioeconomic assessment for the *East Caithness Cliffs* possible Nature Conservation MPA?

Designation: Yes No

Comments

Management Options: Yes No

Comments

Socioeconomic Assessment: Yes No

Comments

All of the above: Yes No

Comments

4. Do you have any comments on the case for designation, management options and socioeconomic assessment for the *East of Gannet and Montrose Fields* possible Nature Conservation MPA?

Designation: Yes No

Comments

Management Options: Yes No

Comments

Socioeconomic Assessment: Yes No

Comments

All of the above: Yes No

Comments

5. Do you have any comments on the case for designation, management options and socioeconomic assessment for the *Faroe-Shetland sponge belt* possible Nature Conservation MPA?

Designation: Yes No

Comments

Management Options: Yes No

Comments

Socioeconomic Assessment: Yes No

Comments

All of the above: Yes No

Comments

6. Do you have any comments on the case for designation, management options and socioeconomic assessment for the *Fetlar to Haroldswick* possible Nature Conservation MPA?

Designation: Yes No

Comments

Management Options: Yes No

Comments

Socioeconomic Assessment: Yes No

Comments

All of the above: Yes No

Comments

7. Do you have any comments on the case for designation, management options and socioeconomic assessment for the *Hatton-Rockall Basin* possible Nature Conservation MPA?

Designation: Yes No

Comments

Management Options: Yes No

Comments

Socioeconomic Assessment: Yes No

Comments

All of the above: Yes No

Comments

8. Do you have any comments on the case for designation, management options and socioeconomic assessment for the *Loch Creran* possible Nature Conservation MPA?

Designation: Yes No

Comments

Management Options: Yes No

Comments

Socioeconomic Assessment: Yes No

Comments

All of the above: Yes No

Comments

9. Do you have any comments on the case for designation, management options and socioeconomic assessment for the *Loch Sunart* possible Nature Conservation MPA?

Designation: Yes No

Comments

Management Options: Yes No

Comments

Socioeconomic Assessment: Yes No

Comments

All of the above: Yes No

Comments

10. Do you have any comments on the case for designation, management options and socioeconomic assessment for the *Loch Sunart to the Sound of Jura* possible Nature Conservation MPA?

Designation: Yes No

Comments

Management Options: Yes No

Comments

Socioeconomic Assessment: Yes No

Comments

All of the above: Yes No

Comments

11. Do you have any comments on the case for designation, management options and socioeconomic assessment for the *Loch Sween* possible Nature Conservation MPA?

Designation: Yes No

Comments

Management Options: Yes No

Comments

Socioeconomic Assessment: Yes No

Comments

All of the above: Yes No

Comments

12. Do you have any comments on the case for designation, management options and socioeconomic assessment for the *Lochs Duich, Long and Aish* possible Nature Conservation MPA?

Designation: Yes No

Comments

Management Options: Yes No

Comments

Socioeconomic Assessment: Yes No

Comments

All of the above: Yes No

Comments

13. Do you have any comments on the case for designation, management options and socioeconomic assessment for the *Monach Isles* possible Nature Conservation MPA?

Designation: Yes No

Comments

Management Options: Yes No

Comments

Socioeconomic Assessment: Yes No

Comments

All of the above: Yes No

Comments

14. Do you have any comments on the case for designation, management options and socioeconomic assessment for the *Mousa to Boddam* possible Nature Conservation MPA?

Designation: Yes No

Comments

Management Options: Yes No

Comments

Socioeconomic Assessment: Yes No

Comments

All of the above: Yes No

Comments

15. Do you have any comments on the case for designation, management options and socioeconomic assessment for the *North-east Faroe Shetland Channel* possible Nature Conservation MPA?

Designation: Yes No

Comments

Management Options: Yes No

Comments

Socioeconomic Assessment: Yes No

Comments

All of the above: Yes No

Comments

16. Do you have any comments on the case for designation, management options and socioeconomic assessment for the *North-west Orkney* possible Nature Conservation MPA?

Designation: Yes No

Comments

Management Options: Yes No

Comments

Socioeconomic Assessment: Yes No

Comments

All of the above: Yes No

Comments

17. Do you have any comments on the case for designation, management options and socioeconomic assessment for the *North-west sea lochs and Summer Isles* possible Nature Conservation MPA?

Designation: Yes No

Comments

Management Options: Yes No

Comments

Socioeconomic Assessment: Yes No

Comments

All of the above: Yes No

Choices to represent features in the MPA Network

28. Recognising the scientific advice from JNCC included alternatives for representing offshore subtidal sands and gravels, ocean quahog and shelf banks and mounds in the Southern North Sea, do you have a preference or comments on the following combinations to represent these features, bearing in mind Turbot Bank will need to be designated to represent sandeel in this region:

- Firth of Forth Banks Complex
- Turbot bank and Norwegian Boundary Sedimentary Plain
- Or Firth of Forth Banks Complex, Turbot bank and Norwegian Boundary Sedimentary Plain

Comments

29. Do you have any comments on the case for designation, management options and socioeconomic assessments for the preference you have indicated in the question above, regarding alternatives for representing offshore subtidal sands and gravels, ocean quahog and shelf banks and mounds in the Southern North Sea?

Yes No

Comments

30. Recognising the scientific advice from JNCC included alternatives for representing the burrowed mud feature in the Fladens, do you have a preference or comments on the following combinations to represent these features, bearing in mind the part of Central Fladen (known as Central Fladen (Core)) containing tall seapen (*Funiculina quadrangularis*) will need to be designated to represent tall seapen in this region:

- Central Fladen pMPA only
- The tall sea-pen component of Central Fladen, plus Western Fladen
- Or the tall sea-pen component of Central Fladen, plus South-East Fladen.

Comments

31. Do you have any comments on the case for designation, management options and socioeconomic assessments for the preference you have indicated in the question above, regarding alternatives for representing the burrowed mud feature in the Fladens?

Yes No

Comments

32. Recognising the scientific advice from JNCC included alternatives for representing offshore subtidal sands and gravels, offshore deep sea mud, and burrowed mud in OSPAR Regions III and V, do you have a preference or comments on the following combinations to represent these features:

South-West Sula Sgeir and Hebridean slope
Or Geikie slide and Hebridean slope

Comments

33. Do you have any comments on the case for designation, management options and socioeconomic assessments for the preference you have indicated in the question above, regarding alternatives for representing offshore subtidal sands and gravels, offshore deep sea mud, and burrowed mud in OSPAR Regions III and V?

Yes No

Comments

Sustainability Appraisal

34. Do you have any comments on the Sustainability Appraisal of the MPA network as a whole?

Yes No

Comments

I consider that the Sustainability Appraisal fails to address adequately a number of points.

1. SPAs are part of the network, yet a recent extension of SPAs into the marine area has not been accompanied by management measures to meet their conservation objectives. Thus, part of the network is already failing to address “sustainability” objectives. Conservation objective-driven management measures should apply to all the network.
2. The Fair Isle community does not feel that enough recognition has been given to the benefits to coastal communities beyond oil, fishing & renewable energy. Fair Isle depends hugely on wildlife tourism, much of it linked to the marine environment.
3. Protecting single sites for priority features is only a first step. Modern thinking recognises connectivity and an ecosystem approach to conservation planning. Such an approach calls for a series of sites and supporting measures to protect the integrity of sites representative of typical (as opposed to rare) high quality habitats and biotopes. Without this the sustainability aspiration is undermined.

Final Thoughts

35. On the basis of your preferences on which pMPAs should be designated, do you view this to form a complete or ecologically coherent network, subject to the completion and recommendations of SNH’s further work on the 4 remaining search locations?

Yes No

Comments

The MPA Overview recognises the growing wildlife sector as a direct benefit; and other benefits mentioned include protecting habitats, fish nurseries, etc. Yet an MPA selection based solely on a very restricted list of priority features – does not address in any way these additional elements. Thus, though a welcome development, the MPA network derived from this process will fall well short of being a complete or ecologically coherent network.

This document states that MPAs will be managed to “achieve their conservation objectives”. This is both commendable and necessary.

However, the Fair Isle experience of SPA designation is that the extension seawards, without management measures to meet conservation objectives, is just a paper exercise and thus fails to meet requirements under the European Birds Directive. Such shortcomings need to be addressed and brought into line with the commitment given in this document for managing the MPA sites.

36. Do you have any other comments on the case for designation, management options, environmental or socioeconomic assessments of the pMPAs, or the network as a whole?

Yes No

Comments

In all our years of trying to flag up the essential requirement for Fair Isle waters that they are managed sustainably for the socioeconomic (as opposed to the environmental) well-being of the island community we have consistently failed to get that message across. There is still a perception that benefits derived from the sea revolve uniformly in what can be taken from it (fish, oil, energy etc.). For many small coastal communities a rich environment and fully functioning ecosystem underpin the entire economic structure – in our case particularly nature tourism, arts, crafts and cultural identity with the sea.
