

COVID-19 Scotland daily update

21 April, 2020

Overall update

Here is the daily report for COVID-19 in Scotland for Tuesday, 21 April 2020. For the full dashboard, including comparisons with other countries, please visit [here](#).

Deaths:

The death toll is currently 985.

The number of new deaths reported today was 70, which represents a 7.7% increase on yesterday's total.

The average daily growth rate for new deaths measured over the last 7 days was -19.6%, but the 95% confidence interval includes zero growth.

Cases:

The total number of cases is currently 8,672.

The number of new cases today is 222, which represents a 2.6% increase on yesterday's total.

The average daily growth rate for new cases measured over the last 7 days was -7.2%, but the 95% confidence interval includes zero growth.

Cases per capita (measured per 10,000 head of population):

The highest incidence over the last day was 0.7, which occurred in Forth Valley.

The highest cumulative incidence is 26.1, which is in Tayside.

Health Boards*:

The largest increase in cases in absolute terms by health board was 65 cases, which occurred in Greater Glasgow and Clyde.

The largest relative increase in cases was 5.5%, which occurred in Grampian, Shetland and Orkney.

The fastest average daily growth rate for new cases over the past 7 days was +11.0%, which occurred in Forth Valley. The 95% confidence interval includes zero growth.

Tests:

The total number of tests reported is 41,699.

The total number of positive cases to date is 8,672.

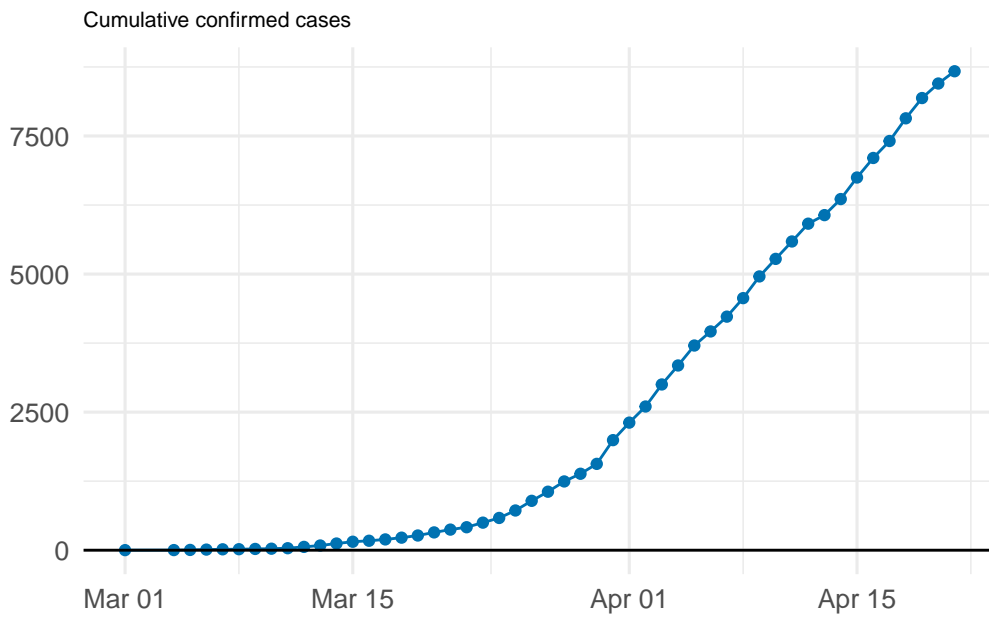

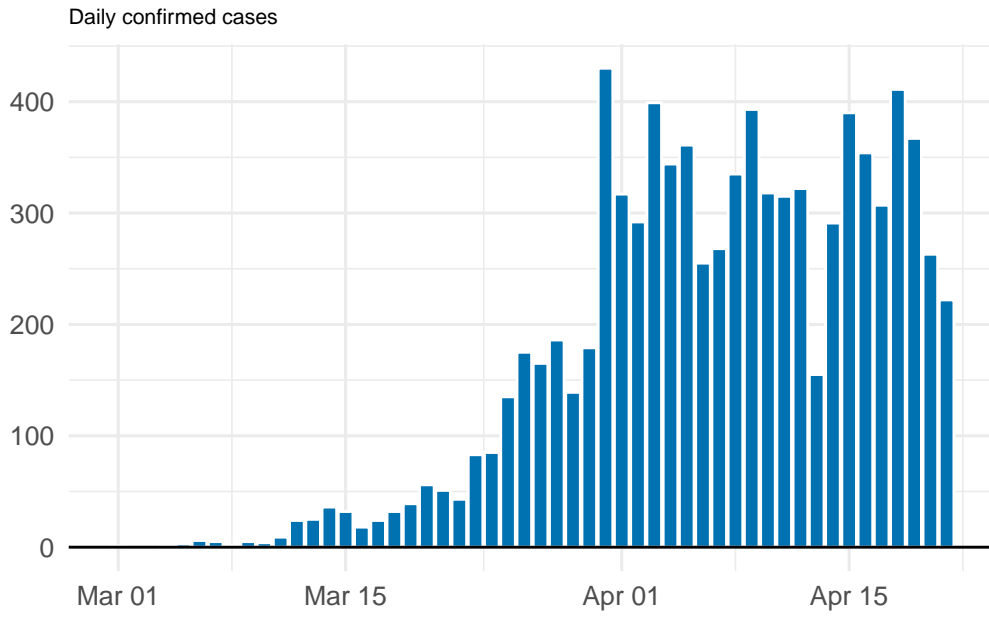

The percentage of tests which were positive is currently 20.8%.

*To enhance graph readability and to account for cases being reallocated across health boards, the following health boards are grouped together: Grampian, Shetland and Orkney; Highland and Western Isles.

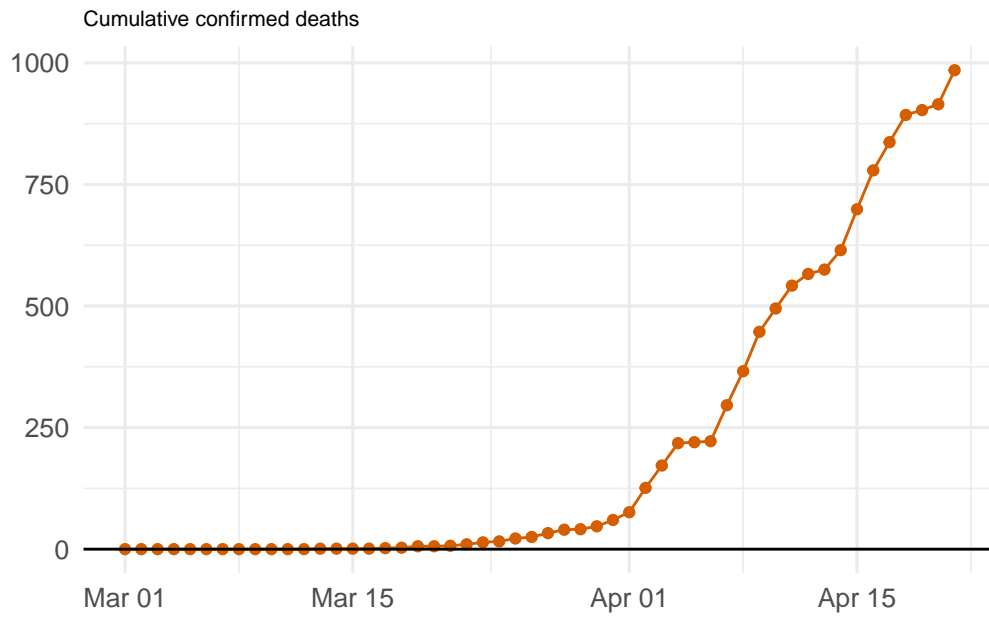

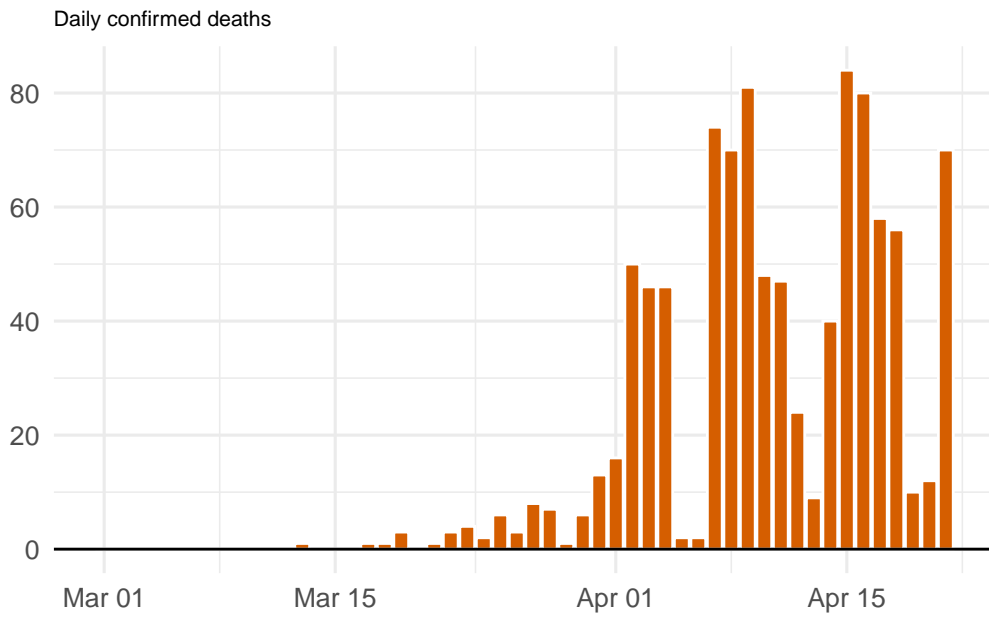

The data in this report are provided by Health Protection Scotland and published daily by the Scottish Government [here](#). This report has been compiled in collaboration between members of the [EpiGroup](#) and [EERA](#) groups at the University of Edinburgh.
