## **Additional Case Information:**

2021 mussels as well as 2022 spat collected on the 6 lines. Site is split into two different zones but registered as one.

Starfish are a significant issue on site and other regions of the voe. Skeleton shrimp are also observed on site in very large numbers. Lime dips of the mussel lines are conducted to reduce starfish numbers. Trials are being conducted by the mussel operator to determine with the use of eDNA the spat times occurences in the voe.

Lines were observed to have minimal fouling and seaweed.

## FISH HEALTH INSPECTORATE VISIT REPORT

## SUMMARY FOR INFORMATION OF SITE OPERATOR

 BUSINESS NO
 SB0389

 SITE NO
 SS0589

 CASE NO
 20220426

DATE OF VISIT 14/09/2022 SITE NAME Quilse INSPECTOR

Inspection under the Aquatic Animal Health (Scotland) Regulations 2009 The above site was inspected, in accordance with the Aquatic Animal Health (Scotland) Regulations 2009.

All epidemiological units were inspected. On this occasion no samples were taken for disease analysis. The Inspector did not observe any clinical signs associated with the listed diseases as described in the Aquatic Animal Health (Scotland) Regulations 2009.

## Records

The surveillance frequency category of the site was assessed as high. An inspection under the Aquatic Animal Health (Scotland) Regulations 2009 will be conducted annually. The category of the site will be reassessed on a routine basis and updated as required.

The information required for the public record of aquaculture production businesses regarding this site was verified and where necessary updated. The following records were also inspected to ensure that the conditions of authorisation for your Aquaculture Production Business (APB) are being met:

Aquaculture animal and aquaculture animal product movement records were inspected and appeared to be adequately maintained.

No evidence of increased or atypical mortalities has been observed on site since the last inspection by Marine Scotland.

No animal health surveillance had been carried out on behalf of the business and/or Marine Scotland since the last Marine Scotland Inspection.

The biosecurity measures plan for the site was inspected and found to be adequately maintained and implemented.

Please contact myself or the duty inspector should you require any further information or have any queries regarding this report.

Signed:

Date: 22/09/2022

Fish Health Inspector

R14
